Krzysztof Kluza

Krzysztof Kluza, MSc (kluza@agh.edu.pl, www) holds a position of a research assistant at the AGH UST in Krakow, Poland, Department of Applied Computer Science.

He was involved in the HeKatE (2008-2009) and BIMLOQ (2010-2012) research projects. Currently he actively takes part in Prosecco and HiBuProBuRul projects. His main scientific interests focus on knowledge and software engineering. His master thesis concerned a UML-based representation for XTT^2 rule representation method; his further research upon this topic is summarized in the JCR journal paper. He is working on his PhD thesis concerning integration of business processes with business rules; some of his results were presented at several workshops and conferences (see his publications).

In 2010 he also graduated from Jagiellonian University (Cultural Studies at Jagiellonian University). During his life he has been involved in several NGO's initiatives (PSSI, ZHP, KdT, EPIcentrum, SS UJ, ITGiants).

In his free time he loves inline skating xor watching musicals.
