Kacper Łodziński

Kacper Łodziński, BSc (ktlodzinski1@sheffield.ac.uk, www) is a BSc Computer Science & AI student at The University of Sheffield. His 2nd year has been spent on the exchange being enrolled in the mainly AI and database management courses at The University of Hong Kong. During the internship at the GEIST he was involved in creating a bot understanding commands with place holders such as engine and components names using the speech recognition. Moreover, he also participated in creating a feature for the BITalino board in the BandReader app and had a chance to use the tools and programs understanding human emotions created by AGH graduates.

His free time he spends on running, reading books and developing his skills.
