Group for Engineering of Intelligent Systems and Technologies

elcome to GEIST Research Group Webpage!

GEIST is led and coordinated by Dr. Grzegorz J. Nalepa with a scientific supervision of Prof. Antoni Ligęza.

We work in the Department of Applied Computer Science at AGH University of Science and Technology in Kraków, Poland.

The group is active in the areas of intelligent systems, knowledge and software engineering, Business Intelligence and Ambient Intelligence (see the group's **research profile**).

GEIST has been involved in number of projects. For more information see **recent activity**, **publications** and **software**.

The group teaches a number of courses and coordinates a specialty **EIS (Engineering of Intelligent Systems)**. We also cooperate with students within dedicated projects.

Feel welcome to contact us!
